Another triumph of Murapol Group's Ambassador– the goals of KARAKORAM SKI EXPEDITION achieved!

Andrzej Bargiel, Murapol Group's brand Ambassador since 2019, has successfully achieved both goals of his alpine venture KARAKORAM SKI EXPEDITION. On 30 April 2021, as the first person in history, he climbed the unspoilt Yawash Sar II – a 6,178-metre peak in the valley of Ghidims-Dur, to then ski down its slopes. On 10 may he repeated this feat, this time with the 6,096-metre-high Laila Peak, located in the Hushe Valley.

After last year's break in alpine activities caused by the Covid-19 pandemic, since 19 April 2021 Andrzej Bargiel has engaged in another expedition being a part of his proprietary project, called HIC SUNT LEONES, involving skiing exploration of the Earth's highest peaks. The assumption of KARAKORAM SKI EXPEDITION was to climb and ski down the slopes of two six-thousand-meter peaks – Laila Peak (6,096 metres above sea level), considered to be one of the most astonishing mountains peaks in the world and the so far unconquerable Yawash Sar II (6,178 metres above sea level). Located on the intersection of borders of Pakistan, India and China the Karakoram range is one of those places, where still many a mountain awaits a conqueror. That is why, it was Andrzej Bargiel's additional goal to scout the area with respect to any future expeditions and to point attention to Pakistan's tourism value.

The strategic partner of Andrzej Bargiel's next expedition, this time: KARAKORAM SKI EXPEDITION, is the nationwide residential developer Murapol Group. Andrzej Bargiel has become the face of Group's campaign called 'Murapol. The Best Places in the World.' The project repositions the developer's offer aimed at more demanding customers, searching for innovative residential solutions, ensuring comfort, sense of security and ongoing savings. All our investments have been equipped with a proprietary Home Management System, allowing installation of smart-home solutions in the apartments. Additionally, each of the offered premises has been equipped with an anti-smog system, protecting the air inside from the outdoor pollution. Consecutive projects are being equipped with ECO packages that, apart from the above-mentioned solutions, included LED lighting in common areas, bicycle stands and electric car charging stations.

- We wish to congratulate our brand Manager for his another global-scale success. We admire his determination, courage in setting goals and consistently reaching every one of them, while breaking the limits set by people before him. I am sure that just as he inspires and motivates us to reach higher and higher levels of our operations, he is also a role model for many people, inspiring them to boldly, but also sensibly and safely fulfil their plans and dreams – says Nikodem Iskra, the CEO of Murapol S.A. Cooperation with Andrzej Bargiel is in line with the CSR sports profile of Murapol Group, in which the developer promotes physical activity – both professional and amateur.
